

**MATHEMATICAL DAY**  
(HOMEOSTATICS)

### I. Conformatics

**Definology.** The *mathematical day* is that one in which the big positive factors of life get confluent synchronically and everything tends to get more right, from the consciential energies (CEs) of the lucid conscin's holothosene.

**Thematology.** Homeostatic central theme.

**Etymology.** The word *mathematical* comes from the Latin language, *mathematica*, and this derives from the Greek language, *mathematike tekhnē*, "mathematical science", feminine singular of *mathematikós*, "relating to mathematics; scientific; astronomical; disposed to learn", from *mathema*, "science; knowledge, mathematical knowledge; a lesson". It appeared in the early 16<sup>th</sup> century. The term *day* comes from the Old English language, *dæg*, "day; lifetime", which in turn derives from the Proto-Germanic language, *dagaz*, "day".
